The organization deposits funds into a cash value life insurance policy on the executive's life. During life, to the extent the executive fulfills service and vesting requirements, the executive can borrow against values in the policy to supplement retirement income. Policy performance is closely monitored. If policy performance lags, the executive's borrowing rights are reduced to protect the organization's recovery rights. At the executive's death, the policy death proceeds are first used to repay the organization its deposits plus compounded

Adventist Health Portland in the Pacific Northw est Region recognizes that stable housing and food security is critical to the improvement of health outcomes. One population that is especially affected by the this are refugees. Adventist Health Portland provided 51 refugee families and four American families a commun ity garden with a total of 42,000 square feet of growing space In 2019, Adventist Health i mproved its strategic goal to transform the health of its communities by engaging in local communities, investing in community well-being and serving the most vulnerable. Population health Population health is a whole-person, outcomes-based approach that works to improve the health of entire communities. It requires collaboration among researchers, providers, public health entities and policy makers. Population health aligns with Adventist Health 's philosophy of care and, as overall health declines in North America, provides unprecede nted opportunities. Adventist Health believes that improving the health status of entire p opulations begins at home. In 2019, Adventist Health entered its seventh year of offering two health plans for employees and their families: the Engaged! Plan and Base Plan. Both p lans offer wellness-focused programs and tools, including a wellness website, free health coaching services, fitness activities, nutrition guidance, smoking cessation workshops and more. Participants in the Engaged! Premier program (the voluntary wellness component of the Engaged! Plan) complete a free biometric screening and wellness assessment, and those with high-risk conditions take part in a free care management program that provides support and education. Nearly 94 percent of employees signed up for the Engaged! Premier Program! In 2019 and 4,778 members completed a biometric screening. Whole-person health involves m ind, body and spirit. The questionnaire is accompanied by a letter of explanation to illustrate examples of a conflict and remind the recipient that if any perceived conflict should arise before the next annual questionnaire, he/she is to notify the CEO immediately. The statements are reviewed by the internal general counsel as part of the annual financial statement audit. For potential conflicts, the CEO or a designee will determine and present all relevant facts to the governing body for decision. | Form 990, Part VI, Section B, line 15 | The Organization's Board of Directors has established a Human Performance Committee to oversee the executive compensation program. This committee is composed of independent directors with no conflicts of interest. The committee performs the following functions: recommends a total compensation philosophy to the board; assures compliance with the board-approved philosophy; meets annually to review comparability data from outside consultants; recommends any adjustments to current executive compensation, including salary ranges for hospital presidents and finance officers that would be indicated by the data; evaluates executive performance against annual goals; recommends appropriate incentive awards to the board for approval; follows a diligent process that meets regulatory requirements for a rebuttable presumption of reasonableness; records committee deliberations and decisions in timely minutes; selects, engages and supervises any consultant hired to advise and provide comparability data. The board-approved executive compensation philosophy specifies that salary ranges will be established for hospital executives, with midpoints aligned with the 50th percentile of comparable system hospital data, and having a 50 percent spread from minimum to maximum. A hospital CEO has a maximum potential incentive of 30 or 35 percent of base salary based upon size and scope of hospital (incentive potential is industry norm). Other hospital executives have a maximum potential incentive of 25 to 30 percent of base salary. |
